

# WIM M. VELDMAN M.Sc., FEIC, P.Eng.

## International Hydrotechnical Consultant

### Overview

Wim Veldman has more than 50 years of experience in major **pipeline, mining and infrastructure** projects in Canada, the USA and overseas. His experience was highlighted by 7 years in the design of flood control and hydroelectric stations in Manitoba, 3 years as the full time senior consultant on the design and construction of the river crossings for the \$8 billion trans Alaska oil pipeline, and 40 years as an independent international consultant ([www.wimveldman.com](http://www.wimveldman.com)).

Wim's scope of work includes planning, serving as an expert witness, organizing public input and meetings, detailed design, project management, field engineering, construction supervision and operational monitoring. Long term relationships with a number of major companies in Canada and the US, such as the trans Alaska oil pipeline for 45 years, attest to the trust and value clients place on his input.

Internationally, Wim has consulted on projects in Indonesia, Sri Lanka, Mongolia, Tanzania, Ethiopia, China, Yemen Chile, Argentina, Ecuador, Peru and Bolivia. His senior role in the design and construction of five major pipelines across the towering Andes in South America over a 10 year period is a testament to his marketing strategy – word of mouth.

### Public Recognition

Wim's achievements, particularly in "extreme engineering," have been recognized via multiple provincial and national awards and showcased in trade magazines. In April 2019 he was invited to testify to Senate Committees in Ottawa re two critical bills affecting oil and gas development and pipelines.

### Feedback

- "You did an outstanding job in providing the hydrologic studies for Atigun. I definitely like your style in making presentations to the regulatory agencies. You have created a tremendous amount of credibility for us with them."*

Alyeska Pipeline Service Company, Alaska  
8 mile long replacement
- "Without your skills in engineering the diversions and containment dykes, dealing with the regulatory agencies on such matters and directing the actual work processes on these activities, we would have floundered"*

Shell Canada Limited  
Pipeline break
- "You have been selected as a well qualified expert with the necessary independence and integrity to carry out an assignment on behalf of both parties."*

City of Calgary/Lafarge Canada  
Bridge Impacts/Floodplain Studies
- "Your professional calm and ability to deal with our difficult negotiations was critical over the past year."*

Athabasca Chipewyan First Nation versus BC Hydro
- "You did a great job communicating just the right amount of technical information to a mixed audience" and "your tone set the stage for respectful conversation."*

Pipeline Repair  
Red Deer River

Camisea Pipeline  
Peru

## PIPELINES

## PIPELINES

Since 1973-1977 when he was the senior consultant to Alyeska Pipeline Service Company for the design and construct of the river crossing and extensive floodplains sections of the \$8 billion, 800 mile oil pipeline in Alaska, Wim has been involved in numerous major pipeline projects. In North and South America he continues as a senior consultant to Alyeska and this long term hands-on experience has been the foundation for his consulting. Wim's experience ranges from routing a pipeline in Tanzania to the design / permitting of numerous crossings in Western Canada to field supervision and permitting for a major repair of a sour gas pipeline break in the Red Deer River.

To increase pipeline cover depths for three shallow pipelines in a major river, he led the design, regulatory and construction phases.

He is presently advising an oil and gas company in the design regulatory approval, construction and cost of a 500 m long bridge conveying seven pipelines.

### DETAILS

The development of sound and practical pipeline river crossing designs and associated environmental impact assessments, requires extensive design, approval, construction and operational monitoring experience. Wim's long-term involvement in the following major and challenging pipelines forms the basis for his input:

- Trans Alaska oil pipeline (45 yrs),
- Mackenzie Gas Project (5 yrs),
- Trans Mountain Looping and Reactivation (10+ yrs),
- Alaska LNG and Alaska in-state lines (5 yrs),
- Other proposed major gas and oil pipelines in western Canada.
- design/construction/monitoring of GasAtacama Argentina (15 yrs), NorAndino Argentina, OCP Ecuador (4 yrs), Camisea Peru (3 yrs), GasPacífico Chile.
- also scoping work in Bolivia, Yemen and Tanzania.

Recognition of Wim's experience has resulted in:

- multiple **awards** of excellence and merit from the Consulting Engineers of Alberta and Association of Consulting Engineers of Canada for the Argentina and Ecuador pipeline projects,
- **invited speaker** for a major pipeline conference in Alaska to present "Lessons Learned,"
- preparation of a major section of an **Integrity Management Manual** for River Crossings for the Canadian Energy Pipeline Association,
- **author** of "Trenched and Elevated River Crossings", ASME, 2019 book (see last page).

### CLIENTS

- Alyeska Pipeline, Alaska
- ARC Resources
- ARCO Alaska
- ATCO
- BC Gas
- BP Exploration Alaska
- Canadian Energy Pipeline Assoc.
- Chancellor Energy
- ConocoPhillips
- Enbridge
- Esso Resources (Imperial)
- Exxon
- Fluor Daniel
- Foothills
- Fortis BC
- GasAtacama
- GasPacífico
- Gulf Canada
- Imperial Oil
- Inter Pipeline
- Kinder Morgan
- Michael Baker Jr.
- Northwest Pipeline
- Pacific Trail Pipeline
- Penn West

- State of Alaska
- TECHINT Trans Canada
- Worley Parsons
- Yukon Pacific

### SCOPE

- DESIGN
- APPROVALS
- CONSTRUCTION
- OPERATIONAL MONITORING

## BESIDES WORK

In 1945, the Canadian-led allies liberated my birth country, the Netherlands. I was born in early 1944. More than 7,600 Canadians lost their lives. As a result of their valour and sacrifice, the suffering of the Dutch especially during the "Hunger Winter" of 1944/1945, was greatly shortened and alleviated. My parents' concern for my health, especially after having lost a 6 month old son in 1940, was obvious from my Dad's hand-drawn medical chart.

Combining my passion (and nominal talent) for long distance road biking with my deep appreciation for the Canadian veterans, I rode Lake Louise to Whistler, in 2015. By the numbers:

- 7 days, 1,000 km
- total climb of 36,000 feet
- \$16,000 raised for the Calgary Veterans Food Bank

Since that ride, I have annually purchased children bikes for families supported by the Calgary Military Family Resource Centre.

## THE BORING DETAILS

### EDUCATION

- B. Sc., Civil Engineering, 1966, University of Manitoba
- M. Sc., Water Resources, 1969, University of Manitoba

### MEMBERSHIPS

- Professional Engineer, Alberta, British Columbia, and Northwest Territories
- American Society of Civil Engineers (since 1968)

### ASSOCIATION RESPONSIBILITIES

- APEGA - Councillor (2004 - 2007)
- University of Calgary - Civil Engineering Advisory Council (2002 - 2004)
- Board of Directors, Consulting Engineers of Alberta (1985 - 1987)
- Chairman, 8th Annual Western Regional Conference, EIC (1982)
- Calgary Chairman, Engineering Institute of Canada (1980 -1981)
- Calgary Chairman, Canadian Society for Civil Engineering (1977 - 1979)

### AWARDS

- In 1984 Wim Veldman was awarded a Fellow in the Engineering Institute of Canada (F.E.I.C.) for "excellence in engineering and services rendered to his profession and to society".
- Multiple awards of "excellence" and "merit" from the Consulting Engineers of Alberta and the Association of Consulting Engineers of Canada for innovative solutions for challenging pipeline projects in Argentina and Ecuador.

### PROFESSIONAL HISTORY

• Wim M. Veldman Consulting Inc.	Hydrotechnical Consultant	2012 - Present
• Matrix Solutions Inc.	Vice President	2005 to 2012**
• Hydroconsult	President	1992 to 2005
• Hardy BBT Ltd	Manager	1987 to 1992*
• Hydrocon Engineering	President	1979 to 1987
• Northwest Hydraulic Consultants	Principal	1973 to 1979
• Manitoba Hydro / Crippen Acres /Province of Manitoba	Hydraulic Engineer	1966 to 1973

\* Hardy purchased Hydrocon in 1987

\*\* Matrix purchased Hydroconsult in 2005

### PUBLICATIONS AND MAJOR PRESENTATIONS
